The Elementary "3 R's" in treating Para-nasal Infection

To achieve all three, it is essential to avoid the vicious circle of vasoconstriction and compensatory congestion, the aftermath of so many vasoconstrictors... the rebound action which so frequently leads to RHINITIS MEDICAMENTOSA.

Provide Relief . . . promote Recovery . . . avoid Rebound with the use of ARGYROL.

ARGYROL decongests without producing irritation or ciliary injury... is definitely bacteriostatic, yet non-toxic to tissue ... cleanses and stimulates secretion, thus aiding nature's first line of defense. Apply ARGYROL (20%) to the nasal meatus by instillation through the nasolacrimal duct ... (10%) to the nasal passages, as drops ... (10%) to the nasal cavities by tamponage... The ideal physiological approach to nasal therapy.

PECTOCEL

(Pectin and Kaolin Compound, Lilly)

'Pectocel' is a nonchalky, attractive kaolin mixture with a creamy, heavy-bodied smoothness. This preparation has considerable appeal to the patient. The ample kaolin content functions as an adsorptive and effectively produces a protective coating that soothes inflamed intestinal mucosa.

'Pectocel' is indicated for the supportive treatment of diarrhea and inflammation associated with enteritis, gastritis, colitis, and other intestinal infections or intoxications.

Formula:

fluid ounce:	15	SI	12	рe	eri:	SIC	"	C	on	ta	111	111	R	111	0	ne		
Pectin		•						•								•	4	1/2 grs.
Kaolin	•		•		•						•		•	•	•	•	90	grs.
Zinc Phenolsulfonate																	1	1 /8 ars

^{&#}x27;Pectocel' is available at pharmacies everywhere.

Kiophyllin is the new, convenient, easily remembered name now applied to the following widely prescribed combination:

Aminophyllin	150 mg.	(2½ gr.)
Potassium lodide	125 mg.	(2 gr.)
Phonobarbital	15 ma	(1/4 ar)

Kiophyllin is indicated in many degenerative and infectious processes involving the heart, the lungs and the vascular system. It is composed of three dependable therapeutic agents in a combination which provides myocardial stimulation, increases urinary output, relaxes bronchiolar smooth muscle, limits fibrous tissue deposition and furnishes mild sedation. It is especially adapted for those conditions requiring prolonged medication.

Available in both plain and enteric coated tablets. The enteric coated form is NEW.

G. D. SEARLE & CO., Chicago 80, Illinois

S E A R L E RESEARCH IN THE SERVICE OF MEDICINE

BECAUSE VITAMINS ALONE ARE NOT ENOUGH

Supplementing the diet with both vitamins and minerals is clearly logical because of the now confirmed nutritional concepts originally advanced by Dr. Casimir Funk in 1936:

- vitamins and minerals are nutritionally inter-related
- the same causes produce both vitamin and mineral deficiencies (unbalanced diet, pregnancy, etc.)
- minerals are nutritionally as important as vitamins

CAMP SUPPORTS for the OBESE PATIENT

OBESE PATIENT: When standing erect, her anterior abdominal wall sagged down upon her thighs.

Helping frail abdominal muscles hold the viscera and their intraperitoneal masses of fat in a better position within the abdominal cavity requires not only excellent support but also a definite procedure in applying the supporting garment.

All Camp surgical fitters are taught that -

Measurements must be taken firmly at the hips and loosely at the waist line with the patient in the supine position — Support must be fitted and applied in the supine position — The patient must be impressed with the necessity of lying down while putting on her support for daily wear.

While essential weight reduction is in progress, Camp Supports — specially designed, properly applied and consistently worn — will relieve the discomfort and many of the symptoms from which the obese patient suffers.

The unique Camp adjustment permits the utmost flexibility in fitting the individual patient and following prescription directions.

CHARLES B. TOWNS HOSPITAL

293 CENTRAL PARK WEST • NEW YORK 24, N. Y

Exclusively for ALCOHOLISM and DRUG ADDICTION

We regard alcoholism and the varied drug habits, including barbiturism, as both physiological and psychological sicknesses. Our treatment is a hospital procedure which eliminates craving by a method of detoxication and quickly restores normal body functions. Following this our psychological approach to the problem has proven most successful.

We have perfected the treatment of drug addiction over a period of forty years. It is now generally accepted as standard. It is completed within a definite period, at a fixed charge, and entails a minimum of discomfort. The patient is assured of absolute privacy.

Our advertisement also appears in the A.M.A. Journal.

Pamphlets, "Drug Addiction," "Alcoholism," and "Symposium of Medical Opinion" on request SCHUYLER 4-0770

A limited number of complete sets of these informative booklets has been gathered in a convenient slip-cover container, designed for ready reference. These are available as long as the supply lasts. The coupon is for your convenience.

petrolatum to promote optimal conditions for kurn healing...

'VASELINE' PETROLEUM JELLY is the world's leading brand of PETROLATUM U.S.P.

With normal nutrition and absence of infection, the burned surface heals.

To prevent potential infection, and thus promote optimal conditions for burn-healing, prompt covering of the wound is imperative . . . with a dressing impervious to infection, non-injurious to cells, non-adherent to the burned tissue. 1, 2, 3

Now...as a result of civilian disaster and burn tragedies of the war...a new treatment for burns has been developed.

In addition to plasma, and chemotherapy internally or intravenously, burn surfaces are promptly covered with dressings impregnated with petrolatum. With these non-adherent dressings, wounds can be left to "rest" undisturbed for days, without the necessity for frequent changes of dressings...without the accompanying re-exposure of the burn surface to infection, too.

'Vaseline' Petroleum Jelly dressings, non-injurious to cells, protect against surface infection from the air . . . help relieve pain from exposed sensory nerve endings . . . promote 'optimal conditions for healing of the burn surface.

'Vaseline' Petroleum Jelly is available in tubes and jars at drug stores everywhere. 'Vaseline' Borated Petroleum Jelly in tubes only.

Menopausal Relief

Plus

A General Sense of

Well-Being

There is usually a "plus" in the treatment of the menopause when "Premarin" is employed. The "plus" is the gratifying "sense of well-being" so many women experience following orally active "Premarin" therapy. It is the intangible factor which, added to relief of distressing symptoms, enables the middle-aged woman to resume her normal routine of useful and enjoyable occupations.

To permit flexibility of dosage and enable the physician to adapt oral estrogenic therapy to the particular needs of the patient, "Premarin" is supplied in three potencies:

Tablets of 2.5 mg. bottles of 20 and 100. Tablets of 1.25 mg. bottles of 20, 100 and 1000. Tablets of 0.625 mg. bottles of 100 and 1000. Liquid, containing 0.625 mg. in each 4 cc. (1 teaspoonful) —bottles of 120 cc.

While sodium estrone sulfate is the principal estrogen in "Premarin," other equine estrogens . . . estradiol, equilin, equilenin, hippulin . . . are also present as water soluble sulfates. The water solubility of conjugated estrogens (equine) permits rapid absorption from the gastrointestinal tract.

WHEN HYPOTENSIVE THERAPY IS INDICATED

HEPVISC, a synergistic combination of hexanitrate of mannitol with viscum album, is a safe and effective agent for bringing about:

- 1. A sustained reduction in blood pressure.
- 2. Relief from subjective symptons.

For optimum results the action of a hypotensive drug should be gradual and prolonged. The fall in blood pressure produced by Hepvisc begins from fifteen to thirty minutes after administration, reaches its maximum in from one to two hours, and persists for from four to six hours.

The effectiveness of Hepvisc in controlling the headache, dizziness, tinnitus and other cerebral symptoms of hypertension is particularly gratifying to many patients.

Dosage: 2 tablets three or four times daily as needed. Supplied in bottles of 50 tablets, 500's and 1000's.

THE COFFIN NAIL RING

The theory of the amulet as a safeguard against disease or other misfortunes has persisted in folk-medicine even in modern times. Sovereign charms against rheumatism are the horse chestnut, the Irish potato and the rabbit's foot. A ring made from a coffin nail dug from a graveyard wards off epilepsy and cramps; a peony root carried in the pocket has a benign influence on insanity.

The practice of medicine has come a long way from the folklore medicine of our forefathers. Scorning superstition, the modern physician prefers to treat disease by a judicious selection of therapeutic agents which were developed after years of scientific experimentation and research.

When your prescriptions are compounded with Mallinckrodt prescription chemicals they are prepared with quality chemicals of unsurpassed purity, uniformity, reliability and efficacy.

The Use Of Acidophilus In Infant Feeding Is Increasing

Many physicians prefer Acidophilus when prescribing a Lactic formula for infant feeding. It has several important advantages.

- 1. Acidophilus is the only sour milk organism that will live and grow in the intestinal tract.
- 2. It has a count at time of bottling of over 500,000,000 active L. acidophilus organisms of human origin.
- 3. It is prepared from Walker-Gordon Certified Milk (2% butterfat) and any higher percent of fat may be obtained on prescription.
- 4. Clinical tests have demonstrated the therapeutic value of Acidophilus Milk in the treatment of constipation of infants and children.*

We believe that it is impossible to buy a more effective Acidophilus—anywhere
